Projects

Portfolio Website - (Html , css and js)

<https://subhashmehta.vercel.app>

- Designed and developed a professional portfolio using **HTML, CSS, and JavaScript**. The site effectively showcases key projects, skills, and contact information.
- Implemented a **responsive design** using modern CSS techniques like Flexbox and Grid, ensuring the site is accessible and visually appealing on all devices (mobile, tablet, and desktop).

Online Shopping Website - (Html , Css and js)

<https://e-commerce-online-shopping.vercel.app>

- Developed a dynamic and responsive e-commerce website using **HTML, CSS, and JavaScript** to showcase a product catalog, functional shopping cart, and seamless checkout process.
- A front-end interface with features including product search, filtering, and a "add to cart" functionality, ensuring a user-friendly shopping experience on both desktop.

Trading Cryptex webpage - Html , Css and js)

<https://trading-website-cryptex.vercel.app>

- This is a trading platform that displays real-time data.
- You can mention that it allows users to monitor market trends, view real-time price quotes for cryptocurrencies (or other assets), and analyze data.
- Clearly state the technologies you used. Beyond the basics of HTML, CSS, and JavaScript.
